PWSID #CO0107236

July 1, 2011

Dear District Resident:

We are required by law to provide you with a *Consumer Confidence Report* that informs you about your drinking water. To save on the expense of printing and mailing this report, we are making the report available on the web and by request. You are welcome to view or print the report online at http://www.eastboulderwater.com/forms_reports.htm.

You may also request a copy from us by contacting:

Bob Champ, Secretary
East Boulder County Water District
7557 Empire Dr.
Boulder CO 80303
303.554.0031 ext. 5
secretary@eastboulderwater.com

Our official report is minimal, since we simply pass on water purchased from the City of Lafayette. EBCWD performs required periodic testing for Microbiological Contaminants and received three reporting violations in March for the calendar year 2010. While chlorine tests were performed each month (March 2010 reading was 0.68 mg/l—passing is 0.02 mg/l), the March results did not get reported to the Health Department, due to the District's operator having to take someone to the hospital.

To obtain a copy of the City of Lafayette's water quality report, go online at <http://www.cityoflafayette.com/Files/2011%20CCR.pdf>, or call Lafayette Public Works at 303.665.5588 ext. 3328.

If you have received this report but are not the primary water user for this property (for example, you own the property but do not live there) please forward this report to the water user or ask them to refer to our web site or contact us so that we can send them this report.

Sincerely,

Mark A. Johns
