December 31, 2015

Dear District Member:

This letter is to notify you that the District's 2016 Water Rates effective January 1, 2016 (first reflected in the January 31, 2016 billing) will remain the same as 2015. There are no increases for 2016. These revenues support all of our operating expenses, plus the cost of any future capital improvements and repairs. (We cannot use existing taxes for these purposes—these may be only used to retire our bonds.) The water rate requirements were set in the public meeting held November 9, 2015.

The District's water source is the City of Lafayette, which has announced no changes to the cost of water or to the account service charge at this time.

The District identified revenue requirements in the 2016 Budget. The 2016 Water Rates have been set to meet those revenue requirements. The District Service Charge for Non-connected Household remains unchanged from 2014.

On the back of this letter, you will find the rate calculator for 2016.

Please feel free to contact any board member if you have any questions about the new rates.

Sincerely,

East Boulder County Water District Board of Directors

/s/ Mark A. Johns
