December 31, 2017

Dear District Member:

This letter is to notify you of the 2018 Water Rates. The District's revised 2018 Water Rates will be effective January 1, 2018 (first reflected in the January 31, 2018 billing). These revenues support all of our operating expenses, plus the cost of any future capital improvements and repairs. (We cannot use existing taxes for these purposes—these may be only used to retire our bonds.) The water rate requirements were set in the public meeting held December 11, 2017.

The District's water source is the City of Lafayette. This is the third year of six years of five percent water rate increases from Lafayette. As a result, the District must pass these increases on to our customers.

On the back of this letter, you will find the January 1 Water Rate Calculator for 2018.

Please feel free to contact any board member if you have any questions about the new rates.

Sincerely,

East Boulder County Water District Board of Directors

/s/ Mark A. Johns
