December 31, 2018

Dear District Member:

This letter is to notify you of the 2019 Water Rates. The District's revised 2019 Water Rates will be effective January 1, 2019 (first reflected in the January 31, 2019 billing). These revenues support all of our operating expenses, plus the cost of any future capital improvements and repairs. (We cannot use existing taxes for these purposes—these may be only used to retire our bonds.) The water rate increase requirements were originally set in the public meeting held June 13, 2016.

The District's water source is the City of Lafayette. This is the fourth year of six years of five (5) percent water rate increases from the City of Lafayette. As a result, the District must pass these increases on to our customers. The Board has determined no changes to the scheduled five percent increase are required for 2019.

On the back of this letter, you will find the January 1 Water Rate Calculator for 2019.

Please feel free to contact any board member if you have any questions about the new rates.

Sincerely,

East Boulder County Water District Board of Directors

/s/ Mark A. Johns
